This print version includes the questions for the Promoting Active Communities Commercial Districts Assessment. This print version is similar but not identical to the online version. The print version is intended to provide a way to preview the questions to get a sense of the information needed to complete the assessment. It cannot replace the online interactive application.

The paper/print version differs from the online version in the following ways:

- The online version automatically shows the questions you need to answer based on your previous answers. In this print version, instructions on which questions to answer and which to skip are shown in red font.
- The online version automatically shows questions you need to answer based on the type of community, such as Large Urban, Small Urban, Suburban, Rural with Town Center, and Rural without Town Center. (Selection of community type occurs during the registration process.) In this print version, questions related to certain community types are noted in red font.
- The online version automatically calculates answers and point values based on information you type in. In this print version, the automatic calculations are noted in red font.
- In the online version, you can mouse over or hover over the words in blue font to get a definition or examples to provide more information and help you to answer the question.
- In the online version, links to helpful documents are clickable and appear in a different color. In this print version, the links are noted with an underline but are not clickable.
- The online version provides a Feedback Report based on your answers as soon as you submit your assessment. It automatically tabulates your scores and indicates which best practices you are currently achieving. The Feedback Report is available only with the online version.
- The formatting of some questions in the online version may look different from the print version. However, the questions and responses are the same as those included in this document.
Commercial Districts Assessment

Research shows that opportunities in commercial district to safely and easily walk, bike, and use public transit, as well as public spaces with comfortable seating and regular activities or programs, encourage physical activity.

Completing an assessment of commercial districts can get your community thinking about how policies, programs, and environments can promote physical activity.

To complete this module, you may find it helpful to:
- Have members on your team who represent your community’s local planning department, downtown, local businesses, neighborhood associations, transit agencies, and public health department. Also include community members.
- Contact your downtown development authority, Main Streets organization, chamber of commerce, local planning commission or planning board, local government engineer, public works, or others for the information you need.
- Refer to additional resources such as Project for Public Spaces and America Walks.

SECTION 1: BACKGROUND INFORMATION

When completing this module, consider commercial districts that have a shared identity or areas with distinguishing characteristics, such as a downtown, stores clustered at an intersection, a strip mall, a commercial corridor or an outdoor shopping mall. This background information can provide useful context and data for your community to track over time.

PLEASE NOTE: If your community has NO Commercial Districts of any type, the questions in this module will not align with your community’s context and your community will not be able to complete this module.

1. What types of commercial districts are in your community? Check all that apply.
   - Big box retail
   - Commercial corridor
   - Commercial strip mall
   - Downtown
   - Indoor mall
   - Lifestyle Center

- Business Improvement District
- Tax Increment Financing
- Philanthropic/private donations

5a. How many funding streams were checked in the list above?

- □ 2 or more (18 pts)
- □ 1 (5 pts)
- □ None (0 pts)

6. In the past 5 years, has your community shown a commitment to creating opportunities for physical activity by applying for a grant or grants, or helping commercial districts to apply for a grant or grants, to fund improvements related to making it easier to be physically active in a commercial district? Examples of such improvements include but are not limited to walk/bike infrastructure, pedestrian safety treatments and/or bicycle facilities in a commercial district.

- □ Yes (9 pts)
- □ No (0 pts)

If the answer to Question 6 is Yes, ask Question 6a.

6a. Did your community receive any of the grants for which you applied?

- □ Yes
- □ No

If the answer to Question 6a is Yes, ask Questions 6b through 6d.

6b. What was the total amount of the grant that you were awarded? Enter whole number dollar amounts. If more than one grant application was awarded during the past 5 years, enter the grant with either the highest dollar amount or the amount for the grant that had the most impact in your community.

___________________ Dollars
6c. **What kinds of improvements did this grant fund?** Check all types of improvements that apply. If more than one grant was received during the past 5 years, either answer for the grant with the highest dollar amount or the grant that had the most impact for a commercial district in your community.

- Planning for or improving **walk/bike infrastructure** in a commercial district
- Planning for or improving **pedestrian safety treatments** in a commercial district
- Planning for, improving, or installing **outdoor public gathering spaces** in commercial districts
- Other

If “Other” is selected:

Please use the space below to describe the other types of improvements.

6d. **Briefly describe the grant.** Include information such as the funding source, the scope of the project (e.g., is the project a small part of the grant, or is the grant funding just a small part of the project?), etc.
SECTION 4: MAINTENANCE AND SAFETY

1. Are commercial districts in your community located within a ten-minute, safe walk of residential areas?
   - Yes, there is a commercial district within a safe 10-minute walk of most/all residential areas (8 pts)

- [ ] 1 or 2 ways (4 pts)
- [ ] None (0 pts)

3b. **Describe any other ways your community has promoted commercial district physical activity opportunities in the last 12 months.**
SECTION 6: AUDIT

This section cannot be fully depicted in print. A brief description of how Section 6 of the online assessment works appears below.

To fully complete this module, your team needs to complete an audit of a commercial district as well as the other sections of the assessment. The audit is designed to assess how the built environment in and around a commercial district is supporting physical activity.

To qualify for inclusion in Section 6 of the assessment, an audit must meet the following three criteria:

- The commercial district audited must have at least three completed/submitted audits by three different auditors. Auditors visit the selected commercial district and complete an online audit form which asks about their observations.
- The audit must be permanently closed. (You can close an audit when all auditors have completed the online audit form by using the Close Audit link on the Audit dashboard. Or the system will close it automatically 6 weeks after the date you started the audit process.)
- The commercial district audit cannot have been selected for a prior Commercial Districts Assessment.

Once you have completed at least one qualifying audit online, you will see a question in this section of the online version that allows you to select an audit. Until then, you will receive an error message when you save this section online indicating that the question related to audit selection is required.

To start a new Commercial Districts audit or to manage an audit currently in progress, log in at the PAC website, select Commercial Districts from the main dashboard and then click on the Audits button. (Your community must be registered in order to log in and use any of the PAC tools.)
SECTION 7: SUBMIT

Thank you for your effort in completing this assessment. You are almost finished!

Please take a moment to review and check off that you agree with the following statements before you click the Submit button at the bottom of this page.

- The team members have approved the final responses.
- We confirm that all the answers we have provided are accurate to the best of our knowledge.

When you click the submit button below, your assessment will be automatically validated and submitted and your feedback report will be generated.

Your feedback report tells you which best practices you are achieving and which need additional effort so you can improve. Be sure to take a look at your feedback report after you submit your assessment.

You will not be able to change your answers after you submit the assessment.
